

# Motor multihulls

We see them appearing more and more frequently in the anchorages, even the most remote ones: motor catamarans are – for the same reasons as their sailing counterparts – revolutionizing the nautical world.

## LEOPARD 43 PC NEW ▼

With the Leopard 43 PC, the South African builder is presenting its fourth generation of motor catamarans. And with more than 150 PowerCats launched, Leopard is indisputably one of the major players in this sector. This new catamaran replaces the 39 PC in the range, and picks up everything that made the 51 PC a success, including the very attractive flybridge and the rigid forward cockpit. Performance should be good, with an advertised top speed of 23 knots, and reduced consumption thanks to chined hulls which allow a good amount of space aboard, but with slim forward sections.

### TECHNICAL SPECIFICATIONS

Builder: Leopard Catamarans - Length: 13 m - Beam: 6.72m  
Engine: 2 x 260hp - Top speed: 23 knots - Diesel capacity: 1,000 l  
Price: 379,000 euros exc. VAT

## X5 POWER NEW ▼

The first X5 Sail has just been launched, and Xquisite is already launching the production of the X5 Power, which should be in the water before the end of 2016. A 54-foot motor catamaran, aimed at owners looking for a comfortable boat to live aboard and travel. Moreover, the South-African builder has developed partnerships to allow its boats to be maintained by professionals, wherever in the world they may find themselves. The builder is working in parallel on a big 80-foot motor catamaran, the Xquisite Explorer 80.

### TECHNICAL SPECIFICATIONS

Builder: Xquisite Yachts - Length: 15.39 m - Beam: 8 m - Engines: 2 x 150hp  
Cruising speed: NA - Diesel capacity: 1,580 l - Price: By quotation

## BAVARIA NAUTITECH NEW ▼ POWER 46

The builder is continuing its development and is turning resolutely towards the motor boat world, with the Nautitech 46 Power. This new boat has been developed from the basis of the Open 46, and again has the saloon/cockpit area as a single volume, which allows for a living area aboard which will delight motor boat enthusiasts.

The hull has been revised suit the constraints of navigation under power.

The builder is also working on a motor version of the Open 40. To be discovered very soon!

### TECHNICAL SPECIFICATIONS

Builder: Nautitech - Length: 13.71 m - Beam: 7.54 m - Engines: NA  
Cruising speed: NA - Diesel capacity: NA - Price: On request

## EUPHORIA NEW ▼

Privlège Marine is continuing its development, and is presenting this new motor boat, designed on the basis of the Série 5. The idea here is to offer an alternative, to a clientele which is looking for a comfortable, seaworthy boat, but doesn't want (or no longer wants) to be bothered with the sail-handling aboard a sailing catamaran. With a cruising speed of 12 knots, the Euphoria makes long-distance cruising possible, whilst enjoying the accommodation and the volume of a 50-foot catamaran with a flybridge, designed exclusively for the crew's well-being.

### TECHNICAL SPECIFICATIONS

Builder: Privlège Marine - Length: 15.25 m - Beam: 7.98m  
Engines: 2 x 180hp - Cruising speed: 12 knots - Diesel capacity: 1200 l

Price: By quotation
