Experience

Luxury Catamarans, Stunning Open Waters & Exceptional Dining... Inside The Xquisite Catamaran Center

Grand Bahama is a unique gem with 44 stunning beaches, warm temperatures all year long, natural wonders, and a wide range of dining, accommodation, and activity options. Just 55 miles off the coast of Florida, the island can also be easily accessed via commercial and private flights, cruise ships, ferry, and private boat, making it an ideal winter getaway.

The Xquisite Catamaran Center (formerly Running Mon Marina) is just one of Grand Bahama's many marina options. Surrounded by the turquoise and cerulean waters that the island is known for, the Xquisite team has created a peaceful oasis for boaters.

Just 10 minutes from the heart of Grand Bahama, the Xquisite Catamaran Center offers a secluded bit of tranquility for marine enthusiasts who have traveled to the island to get acquainted with their very own luxury Xquisite vessels or to enjoy a private charter.

The Xquisite Catamaran Center is also home to the company's corporate offices, charter base, brokerage office, training center, Xquisite Service Center, and accommodations - making it an easy entry point.

Stephen Joyce, Xquisite's Global Service Manager, notes that their X5 Plus luxury catamaran is built in South Africa, making Grand Bahama a central location for their United States-based customers to receive their vessels and undergo a comprehensive two-week training on-site.

"One of our experienced Captain/Technicians gives the two week onboard client training" adds Joyce.

"During the two week client training, we create an enjoyable, safe and educational environment for our clients. They receive a detailed understanding of all the systems and components on board, as well as dockside training and tons of sailing time. After the two weeks training, we offer a concierge service for our clients. In the event they have any issues or problems with third-party components, we liaise between the client and the third-party component manufacturer to resolve the issue, making their life as easy as possible."

The Xquisite team's attention to detail also extends to their on-site restaurant. The Galley, which is led by Chef Harold Pinder, features a menu of intricately balanced dishes and flavors. Chef Harold, who is joined by Shankea Ambrister and Willard Martin in The Galley kitchen, describes their cuisine as "...very diverse, and a good blend of cultures from all around." He also noted that he likes to bring local

ingredients to the forefront, weaving them together with international techniques to create something that guests won't soon forget.

The Galley can be accessed via land or sea, with a short-term marina docking slip for restaurant visitors.

The Xquisite Catamaran Center's facility has recently been outfitted with all new amenities like showers and washing facilities, with their hotel room renovations scheduled to be completed by the end of 2023.
